

TUSET L-DOWN LED SOUND ABSORBENT

Architectural luminaires

Luminaire specially designed for offices, with a distinctive and exclusive geometry, with the best lighting performance and very high durability. The optical system is a high-performance louver with direct light emission (down). Minimum glare and maximum luminous flux combined in the version with louver. Reduced profile metal enclosure, allowing spaces to be enriched with an exclusive design, without giving up the integration of the luminaire with the interior design, thanks to the wide range of possibilities for customizing the combination of body-louver colours. Luminaire fitted with a PET acoustic panel mounted in the centre of the luminaire, between the louvres.
