|                           | Description   |  |
|                           | X-LINE SLIGHT SPOTS is a variant of our popular X-Line linear lighting series,<br>now featuring a combination of general and accent lighting. This version integrates<br>compact yet powerful projectors from LUXIONA offer (Luxcan Micro) with a 15°<br>optical beam (PMMA lens), allowing 360° horizontal and 90° vertical rotation, ideal<br>for highlighting any detail in the space. These projectors are also featured in<br>various Luxiona products, achieving a cohesive aesthetic across projects that use<br>multiple products. Luminaires, available in suspended option, come with opal or<br>micro-prismatic diffuser, in 3000K and 4000K colour temperatures, and CRI80.<br>They are available in three finishes (white, black, and silver) and three lengths<br>(1162, 1723, and 2284mm). It is also possible to choose between non-dimmable<br>drivers or DALI dimmable options. In addition to all standard configurations, this<br>product can be customised in LED colour temperature, CRI, and beam angles<br>(24°, 36°, or 50°) to fit specific lighting needs. |  |
